“Work shouldn’t only be a ‘must’.”

FREE THINKER

EXTROVERTED

COURTEOUS

Self-evaluation

I’m not that comfortable with technology.

I use social media a lot and use different platforms to share my photos. I also use one or two programs to edit my photos.

Generally however, I stay well clear of technical challenges.

Goals

To photograph the northern lights.

Travelling is a big goal in general. To visit different places and capturing their sights.

Motivation

Family and friends. To go out together with others motivates me.

When I don’t have to wait for a long time for my coffee at Starbucks on Monday morning.

Annoyances

When something doesn’t work as I’m used to, especially with computers.

Stress and time pressure. Under pressure I don’t work very efficiently, since I tend to make more careless mistakes.
